Healthy Places Award

You are invited!

We would like to take this opportunity to formally invite you to the launch event for our Healthy Places Award. Whether you are already enrolled in the award, or considering it for your setting, this event provides the ideal opportunity to learn more about the benefits it can bring. It will also give you the chance to network with other organisations involved in the award, and see the reach and impact it can have in our community.

There will be guest speakers from the Community, Workplace and Education settings, and workshops on some of the actions required to achieve your Healthy Places Award.
