Skills Plus is a programme of workshops part funded by Big Lottery Fund and European Social Fund through the Building Better Opportunities programme. Sessions are delivered to service users of Framework aiming to give people the skills to successfully maintain their tenancies. If you have enjoyed the flexibility and excitement of working in a community setting in the past then we would love to hear from you.

We are looking for people to deliver courses that will empower individuals, be sensitive to their needs and build self belief and confidence, as well as improving their skills. You will need experience in developing and delivering learning activities to socially excluded groups, a driving licence and access to a car.

Framework is a large charity in the East Midlands working with homeless and vulnerable people. We aim to provide education, volunteering and employment opportunities for Framework's service users and other unemployed individuals. We work with people who have learning disabilities, mental health and substance misuse issues.
